

Appl. No. 10/559,737
Response Dated June 30, 2009
Reply to Office Communication of June 2, 2009

Attorney Docket No. 89227.0011
Customer No.: 26021

Amendments to the specification:

Please replace paragraph 108 of U.S. Pub. No. 2006/0142542 (specification at page 41, last paragraph) with the following rewritten section:

Any material may be used as the epoxy compound (B) according to the present invention as long as the compound has an epoxy group and an unsaturated double bond in its molecule. However, specific examples thereof include glycidylmethacrylate, glycidyl acrylate, allylglycidylether, allyl glycidyl ether, glycidylvinylether, glycidyl vinyl ether, or a compound etc. represented by the following formula (10). where r represents an integer ranging from 0 to 40, and R.^{sup.8} represents H or a methyl group. These compounds may be independently used, or a suitable combination of two or more kinds may be used.
